25-80

RESOLUTION

WHEREAS, the Sunset Law Review of the State Board of Technical Registration has resulted in the need for legislative action to continue its function, and

WHEREAS, the State Board of Technical Registration is the vital vehicle for insuring the public that those representing themselves to be technical professionals are actually qualified by nature of their registration under the Arizona Revised Statues provisions, and

WHEREAS, the public is entitled to the firm protection of Registered Technical Professionals, when employing persons in a professional capacity, and

WHEREAS, public health, safety and welfare is a basic element in technical professional work for the public, which must be considered as the elementary responsibility and obligation of the Registered Technical Professional in offering his services to the public, and

WHEREAS, the public is entitled to the protection and competency in employing Registered Technical Professionals, and have the right to expect this obligation from them.

NOW THEREFORE, BE IT RESOLVED, by the Board of Supervisors, of Navajo County, that they encourage the Legislature to adopt the McMillan Bill to reestablish the authority of the State Board of Technical Registration to register qualified technical professionals, to insure public protection of those services in technical areas for which they represent themselves to be professionals, and to monitor the competency of those previously registered for continued abilities and adherence to professional standards.

Moved by Supervisor Norman H. Turley

Seconded by Supervisor Johnny L. Butler

that the above Resolution be adopted this 19th day of February, 1980.

Motion (carried).

Navajo County Board of Supervisors

Norman H. Turley

Johnny L. Butler

Attest:

Connie J. Mazon

Clerk of Board
