NAVAJO COUNTY BOARD OF SUPERVISORS

RESOLUTION NO. 133-81

REQUEST FOR SUPPORT FROM THE COUNTY SUPERVISORS ASSOCIATION OF ARIZONA

WHEREAS, When life and property are endangered, no County should be an island unto itself, and;

WHEREAS, Navajo County is faced with a major problem that it cannot resolve with its own resources, as outlined below:

An existing dam, Lone Pine Dam, has been declared unsafe by the Safety of Dams Division of the Arizona Department of Water Resources. If this Dam should fail, untold damage to life and property could be suffered. Any solution to the flood problem not only benefits the citizens of Navajo County, but also benefits a large portion of the State by reducing the flood potential and increasing groundwater recharge. Navajo County does not have the financial resources to eliminate this flood hazard by constructing a new Dam downstream from the existing Lonepine Dam, now therefore;

BE IT RESOLVED, that Navajo County respectfully asks the support of the County Supervisors Association of Arizona to support action by Navajo County for special Legislation to help construct this project, and;

BE IT FURTHER RESOLVED, that Navajo County further requests the County Supervisors Association of Arizona to adopt a resolution of support to be forwarded to the Governor, State Legislature, and to the Arizona Association of Counties for their action.

Approved this 17th day of November, 1981

By: Johny L. Butler
CHAIRMAN, Navajo County Board of Supervisors

ATTEST: Sharon R. Kerns
Clerk of the Board
