EDWARD J. KOURY
County Manager

JUDY JONES
Clerk of the Board

RESOLUTION NO. 119-97

RESOLUTION ADOPTING THE NAVAJO COUNTY MANAGEMENT PLAN FOR WASTE TIRE DISPOSAL

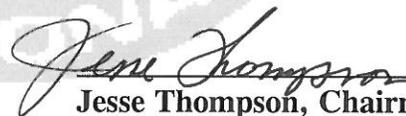

WHEREAS, the State of Arizona requires each county to manage the disposal of waste tires, as per Arizona Revised Statute §44-1301, et al; and

WHEREAS, the Arizona Department of Environmental Quality is mandated by law to obtain from each county a management plan for waste tire disposal; and

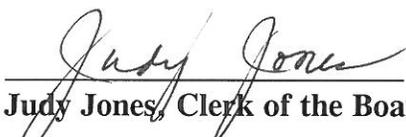

WHEREAS, Navajo County is interested in complying with state law to continue the proper disposal of waste tires and, thereby, also be eligible to receive appropriate Grant funds for such activity.

THEREFORE, BE IT RESOLVED, that Navajo County adopts the Management Plan for Waste Tire Disposal.

PASSED AND ADOPTED this 6th day of October, 1997.

Jesse Thompson, Chairman
Navajo County Board of Supervisors

Attest: 

Judy Jones, Clerk of the Board

NAVAJO COUNTY
MANAGEMENT PLAN
WASTE TIRE DISPOSAL

I. GOAL OF THE NAVAJO COUNTY SOLID WASTE TIRE DISPOSAL

To effectively manage all waste tires that are generated in Navajo County, as mandated by A.R.S. §44-1304. The plan provides for continued collection, storage and disposal of waste tires in compliance with the law. To this end it is hoped that illegal dumping of tires in the forest, high desert, and/or landfills can be diminished and even eliminated.

II. REGION SERVED BY COUNTY PLAN

The area served by the present plan is that area located in the southern portion of the county and is bounded by the Navajo Reservation on the North and the Fort Apache Reservation on the South.

Within this service area are the incorporated entities of Holbrook, Winslow, Snowflake, Taylor, Show Low, and Pinetop-Lakeside. These areas generate most of the tire sales in the South end of the County.

III. INDIAN RESERVATIONS

Navajo County includes portions of the Navajo and Fort Apache Reservations and a portion of the Hopi Reservation. Each reservation, as located in Navajo County, has one or two tire dealers which sell tires to the local people. However, most reservation residents travel to off-reservation population centers to purchase tires, generally two or four at a time.

Since, the Indian Reservations do not fall under the A.R.S., the few tire dealers on

reservations do not collect the 2% fee for waste tire disposal. The present County plan allows any resident (either on or off reservation) to bring up to five tires a year to the designated Waste Tire Collection Sites (WTCS). When the various tribal government(s) establish policies to handle "reservation generated" waste tire disposal, then Navajo County can coordinate with them via Intergovernmental Agreements, etc., to help collection/disposal efforts by the respective tribe(s).

IV. WASTE TIRE FUND

The funds as received by Navajo County will go toward the operation of two WTCS sites. These sites are established at the Lone Pine Transfer Station and at the Pen Rob Landfill. Both have ADEQ approved site plans.

The quarterly funds, as received by the County, are split for the disposal costs (75%) and for the collection sites (25%). Each collection site may decide to charge a fee for those waste tires not covered by the statute, such as off-road tires, as well as charging a fee to those businesses who don't pay the environmental disposal fee to the State of Arizona, i.e., they buy the new tires for their business out of state and then bring their waste tires to the collection site, etc.

Navajo County does not plan to take an administration fee out of any of the grant funds received.

V. WASTE TIRE COLLECTION SITE

A. The Lone Pine Waste Tire Collection site is located on property within the Lone Pine Transfer Station. This site is seven miles north of Show Low on SR-77 and then 0.1 mile West on Lone Pine Dam Road. The WTCS is open and manned on Thursday from 9:00 A.M. to 5:00 P.M. Tire dealers have been faithful in coming in on this day of the week.

B. The Pen-Rob Landfill is located 3 miles north of Joseph City on Porter Avenue.

The site accepts tires 5 days a week.

C. Both sites accept "off road" tires free of charge, but this may change due to rising disposal costs.

VI. CONTRACT FOR TRANSPORTATION/DISPOSAL OF COLLECTED TIRES

Navajo County will have the tires disposed of according to the state statutes.

VII. NAVAJO COUNTY'S WASTE TIRE PROGRAM

The Waste Tire Program for Navajo County is administered by the Engineering Department, Holbrook, Arizona. Waste tires are brought in from most parts of the service area. Several large collectors, of up to 1,000 tires, are brought to the WTC sites by the tire dealers, trash haulers, or county registered organizations. ADOT has found it quite helpful to have a WTCS located near Interstate 40 as each month they collect tire scraps from the freeway and bring them directly to Pen Rob WTCS.

VIII. PUBLIC INFORMATION

Initially, letters were sent to each tire dealer located in Navajo County and who may be registered as such with the State. The letter summarized the program and gave directions to the closest WTCS. Also, releases to the newspaper were made and printed in the local newspapers within the service area.

As the contractor is signed on for transportation/disposal or when another WTCS opens or closes, the above action will be duplicated, i.e., letters to tire dealers and news releases.

IX. ILLEGAL WASTE TIRE COLLECTION SITES

There may be illegal storage sites unknown to County personnel at this time. When or if they are verified, county personnel will alert them of the current law.

X. **REGISTERED PARTICIPANTS IN THE WASTE TIRE PROGRAM**

The current "county-registered" participants are attached. They are listed by the WTCS they take tires to. This is updated as needed.
